

## Your celebration at the Tiffin Centre

At the Tiffin Centre for Conservation, you'll find a beautiful natural setting for any wedding celebration. Our Great Room offers a comfortable, light filled space with room for up to 100 people, and our 120-property features a wide variety of picturesque location for photos and ceremonies.

### Ceremony & Photo Locations

The Tiffin Centre ranges from forests and open meadow to ponds and wetlands, offering a variety of picturesque locations in all four seasons. The gazebo at Baby Bear Pond and the forest clearing in front of the Jose Building are lovely and popular spots for wedding ceremonies.

The Outdoor Classroom is a rustic wooden shelter situated along the boardwalk outside of the Jose Building. It can serve as a mingling area, or as a rain back-up location for an outdoor ceremony.

Wedding ceremonies may also be held in the Great Room. It is a particularly lovely spot for a winter fireside ceremony.

### Reception Venue

The Great Room at the Jose Building features a soaring wood-beamed ceiling and a two-storey stone fireplace, making it an ideal location for your reception or indoor ceremony. The Great Room opens into a large hallway and covered boardwalk providing additional spaces for your guests to mix and mingle.

Adjacent to the Great Room is a small but complete kitchen for caterer use. Also available is the Jose Building's South Classroom, a convenient multi-purpose room with extensive counters and two sinks, offering ample preparation space for your caterer, bartender or bridal party.

Seating and tables for number of guests as allowed under the provincial gathering limit during COVID-19.

NVCA staff are following newly established health protocols, implementing social distancing working practices and providing enhanced cleaning of high-touch surfaces throughout the day.
